SUSTAINABILITY & CSR TRANSLATIONS

- In-house subject experts on sustainability topics and non-financial reporting, including mandatory and voluntary sustainability reports
- Terminology databases for the EU taxonomy, GRI, UN Global Compact, OECD Guidelines, the German Sustainability Code (DNK) and ISO 26000 reporting standards as well as the German Commercial Code (HGB), IFRS, US GAAP etc. and client-specific glossaries
- Formatting services for ESEF and Federal Gazette compliance
- Multimedia team for digital reports including videos (transcription, subtitling, voiceovers)

HOW CAN EVS TRANSLATIONS HELP MY TEAM?

Our in-house team helps listed companies as well as SMEs to tailor their translation efforts for reporting. A customisable all-in-one reporting solution helps businesses to communicate with global stakeholders consistently and enables them to make informed decisions in their own language.

OUR CLIENTS AND PROJECTS

Audit firms, insurance groups and national and international banks as well as manufacturing companies, media companies, software providers and medical institutions trust EVS Translations to deliver consistent, high-quality work – including when volumes are high and time is tight. We work with glossaries and translation memories to help reduce both delivery times and spending in subsequent reporting years.

WHY EVS TRANSLATIONS?

- In-house linguistic & technology teams
- Technology-driven solutions
- Stringent data security
- Scalability from global offices
- Customisable workflows
- Native expert linguists
- Dedicated account managers
- Top 100 Language Service Provider 2022
