

VIDEO LOCALISATION

The process of recreating original video content in new languages. Reach global stakeholders through video, while maximising on the investment of your original video content.

VIDEO LOCALISATION AT A GLANCE

- Transcription & time-coding
- Subtitle translation
- On-screen text translation (incl. kinetic typography)
- Voice-over recordings in one or multiple languages
- Cultural adaptation: transcreation and copywriting for scripts

Choose a stand-alone service or full package solution: **a fully localised video** with all text, graphics and audio content embedded. From **1 to 20+ languages** per project.

HOW CAN EVS TRANSLATIONS HELP MY TEAM?

Our video localisation and creative teams combine technical and linguistic expertise to produce video that is effortless for international audiences to watch. We work with Adobe Premiere Pro, Adobe After Effects and Final Cut Pro, as well as other leading video editing and motion graphics software programs.

OUR CLIENTS AND PROJECTS

EVS Translations regularly partners with marketing, media production and internal communications teams to deliver multilingual videos for social media, TV advertising, e-learning and more.
